

## Explore the World Around You

- See if you can find a bird's nest in a tree (don't touch it!). Where was it?
- Find two different insects on a tree. Describe them.
- Choose your favorite tree outside and draw a picture of it.
- Find three different kinds of wild flowers and draw a picture of each. ( Do not pick them please)
- Find a butterfly and draw a picture of it.
- Do a leaf or bark rubbing.
- Find three different types of birds. Do you know what they are?
- Find a round, a flat and a square rock.
- Find four different types of fallen leaves.
- Find a live ladybug. See if you can count her spots.

Take a walk outside and explore the world around you to help you complete this scavenger hunt. See what new, interesting and exciting

things you can find simply by going for a walk. There are a few things to remember when you are out and about.

1. Please leave everything as you found it. If you find something interesting or exciting, look at it, but leave it behind so that the next person can see it as well.
2. Please try not to disturb anything. Many plants are food and homes for other living creatures, so be careful when you explore.
3. Please be aware that it is illegal to remove, deface, injure or destroy plants, fossils and rocks in provincial/state/national parks.
4. For your own safety, and to protect the local wildlife, please do not approach, harass, or attempt to feed wild animals ( this includes seagulls ! ) These actions may cause a wild animal to feel threatened, and a threatened animal can pose a danger to humans and/or their pets.
